

QUINTREX 600 FISHSEEKER HULL & TRAILER ONLY

\$22,240

Description

The Quintrex Fishseeker is built for no nonsense fisherman, you can carry a huge load, and travel long distances in comfort with this big boy. With the Quintrex Millennium Blade hull and Flared bow, this boat is very capable in all conditions, inshore and offshore.

Quintrex Tinnies are an Australian icon! Durable, versatile and built to last years of fun and enjoyment, they are a quintessential part of boating, since most of us have owned one or know someone who has one!

This single piece extrusion is designed with a small exterior keel for structural strength and durability. It helps with tracking, provides protection when on the trailer and against debris in the water or when parking on the beach. It also provides a keel-effect when at rest in cross-wind / current situations.

Rated to 90hp outboard and able to carry 6 people, this is a beefy boat, boasting massive amounts of interior space. Full carpeted floor between foam filled bench seats come standard, as well as front and rear casting decks with plenty of storage underneath. 5mm bottomsides and extruded side decks provide the structural strength to make this model the biggest in the Quintrex open boat / tinnie range.

Our Price here is for:
